Full job description

Your new company

This is an exciting opportunity to join an expanding organisation specialising in Defence and government related products. Working within this dynamic and expanding industry leader will give you the opportunity to lead on an exciting defence project.

Your new role

You will assist the Engineering Lead in managing and delivering the engineering aspects of projects. You will be involved in design reviews, test events and other requirements for the project. You will lead all security-related aspects of the engineering program, managing sensitive technology aspects and security and accreditation.

What you'll need to succeed

- Systems Engineering experience with an emphasis on security
- Must hold Australian Defence Clearances or one able to be reinstated

What you'll get in return

You will be offered a permanent position with a leading organisation that specialises in Defence Programs. Offering an excellent working environment and culture, with future opportunities for career development and working on a major defence project in the Newcastle area.

What you need to do now

If you are interested in this position and feel you have the skills described to be

successful, click 'apply now' or for more information and a confidential discussion or to find out about more opportunities within the Defence Industry contact Vivian Cormier at Hays on 02 9249 2275 or email vivian.cormier@hays.com.au
