### Full job description

#### Your new company

This diversified local consultancy is a market leader in their provision of building engineering solutions to their loyal client base throughout Tasmania. They offer multi-disciplinary services that cover building services design, contract administration and buildings maintenance.

#### Your new role

This opportunity will see you playing a lead technical role in the design and documentation of electrical services for new buildings works and redevelopments. You'll be reporting to the Principal Electrical Engineer and working closely with Junior Engineers and Technicians to ensure the timely delivery of project solutions and designs.

#### What you'll need to succeed

This role commands a very deep understanding of the BCA along with strong engineering technical abilities. Deep experience within the buildings and property sector is essential, along with Tertiary Electrical qualifications in electrical engineering.

#### What you'll get in return

This role offers the opportunity to work for a very successful and local consultancy which over the years has forged a very strong niche and enviable reputation. They are a leader in the design and delivery of all building services solutions and can offer excellent career prospects, a competitive salary and work place flexibility.

#### What you need to do now

If you're interested in this role, please apply online, or forward your CV to [adam.barker@hays.com.au](mailto:adam.barker@hays.com.au) or call me on 03 6108 5508
