Full job description

Fixed Plant Maintenance Electrician

[Apply now](#) Job no: 514215

Work type: Full Time Fortescue Employee

Location: Perth, Iron Bridge

Fortescue is now consistently producing 175-180 million tonnes of iron ore per year and has an exciting future ahead as it diversifies from a pure play iron ore producer to a green renewables and resources company.

The company is scheduled to commence production at its Iron Bridge magnetite mine in mid-2022.

Iron Bridge is Fortescue's US\$2.6 billion project, set to deliver 22mtpa of high grade 67% Fe magnetite concentrate product. Located 145km by road south of Port Hedland, the mine will deliver an innovative process design and industry-leading energy efficient operation.

Iron Bridge represents Fortescue's latest operation culminating in a new OPF/CHF, new technologies and camp facilities.

Fixed Plant Maintenance Electrician
